

One Time Stream Cleanup of South Fork Peachtree Creek, Snapfinger Creek, and South River \$1,009,000.00 Contract Amount DeKalb County, GA

Site Engineering contracted with DeKalb County and began cleanup of South Fork Peachtree Creek, Snapfinger Creek, and South River on April 10, 2014. C.E.R.M was contracted by DeKalb County as a third party to observe and inspect the project for compliance. One hundred and forty one (141) individual work site locations along the three water sheds were assessed and rehabilitated. Careful consideration of each site commenced on the environmental benefits from removing any embedded debris at the location. Cleanup operations were completed 9/5/2014.
